## RTX — DEDICATED CORES MAXIMIZE RT PERFORMANCE

## New RTX Gpu launch

Nvidia launched one of the most compelling gaming lineups in recent history with Ampere RTX30x0 series.

While the product is a huge leap in performance compared to the previous generation, past disclosures from AMD suggest that it may be in the hunt for the high end with Big Navi.

If AMD can pull off a high-end alternative, AMD investors could see a GPU battle with Nvidia, which is somewhat of a repeat of its recent CPU battle with Intel.

This idea was discussed in more depth with members of my private investing community, Beyond The Hype.

## The best builds in Elden Ring

The best Elden Ring builds wrap themselves around a strong weapon or playstyle that will help you carve your way through the Lands Between. There are a massive number of weapons, armor sets, and Ashes of War in the game to build around. Whether you're looking for a thematic build or an unbeatable build, there are plenty of options to choose from.

### Workshop Items Now Support Sketchfab Interactive Previews

26 March, 2016 - Alden

When preparing the Workshop page for your mod or item, you now have the option to include a 3D Sketchfab preview of your item along with your videos and screenshots.

Here's an example from johnskyrim's Doomhammer, a Skyrim weapon mod:

Sketchfab Model: Could not contact Sketchfab unknown

This can be used to provide an interactive 3D presentation of your model, scene, or item that users can zoom, pan, or rotate around to get a better view of your submission.

To include a Sketchfab preview, you'll need to create a free account on Sketchfab's website (<http://sketchfab.com/>) and upload your model there similar to how you go about posting a video to YouTube. Once your item has been posted to Sketchfab and you have a page on their site, you may enter that URL in the new field provided in the Steam Workshop when editing the screenshots and videos for your item.

The Sketchfab preview can also be inserted into Steam Community Discussions, Announcements, and Green-light submissions.

Here are a few more examples:

City Skylines:

### Content Creators Earn Over \$50M Through Steam Workshop, Can Now Earn Money in More Games

29 January, 2015 - Alden

When we launched the Workshop late in 2011, we expected that it would grow, but not that it would grow this much, this quickly. So far, the total payments made to individuals for the creation of in-game items sold in Team Fortress 2, Dota 2, and Counter-Strike: Global Offensive have passed \$57 million. This money was earned by over 1,500 contributors spread out across 75 countries.

### Introducing Revenue Tools For Workshop Authors

The Workshop has continued to grow and a larger number of contributors are now earning revenue from more pieces of content in a wider variety of games. To help answer questions about where revenue is coming from, we're also launching a set of new tools that enable contributors to view real-time sales data for their items as well as view detailed per-item revenue breakdowns and historical statements.

Once you have content accepted into a paid, curated Workshop, you'll see a link to "View Your Revenue" from your "My Workshop Files" page. If you don't have any content accepted yet, now's a great time to get involved!

## Welcome to the Steam Discussions

**Everyone is invited!** The Steam discussions are for everyone, new and advanced user alike!

**Searching is key!** Before you post a question, use the forum search feature to determine whether your topic has already been covered.

**Do not start flame wars!** If someone has engaged in behavior that is a detriment to the message board -- spamming, flaming people, etc -- contact one of the forum moderators or report the post. Flaming the offensive user will only increase the problem. Harassment is not tolerated.
